

FAQS ABOUT OUR ONLINE DANCE CLASSES

How does Zoom work and do you have to pay?

Zoom is completely free. You don't need to install any extra software to join, you can do it all through your web browser.

Once you have signed up to one of our online courses we will email you a URL link to the class. By clicking on that link you will be taken to Zoom. You then enter the meeting ID we have provided to be connect to the class and then you're ready to go.

Will the other online class attendees be able to see me in my living room?

No. Only the teacher will see you and if you don't want her to see you, Zoom gives you the option to turn off your camera.

I don't think my living room is big enough to dance

Our dance routines have been specifically designed to be danced in a small space such as a living room, kitchen or dining room. As long as you have a space which is roughly 2 square metres, can dance with us!

I have zero dance experience

We welcome beginners to all our online Charleston courses and also run Friday night parties both are a great way to get started if you are new to dance. They are both suitable for complete beginners but can also be enjoyed at any dance level.

Our online musicals course is for anyone who might have done any of our previous Charleston classes or other dance classes.

Do you offer recordings of the classes if I miss one?

Yes. We record all the online zoom classes so if you miss one you can still do the class in your own time and then re-join us the following week.

Do I have to dress up for Friday Night Parties?

For our Friday Night Parties we encourage dressing up as we think it makes the class more fun but please come wearing whatever you are comfortable dancing in such as loungewear or dancewear.
